A Note About Our Adapters

If you already have one of our Heated Cooler Line Flushers, you may need certain adapters. Be sure to check out the [Adapter](#) page of our website to see what we currently have available. If you can't find the adapter you need, call us and we'll help you figure out which one will work - or you can help us create a new adapter! If we do not have an adapter to fit your cooler lines and you send us the cooler line, we will manufacture the adapter, add it to our line, and send you the new adapter for free!
